IT TAKES TWELVE JURORS.

Verdict by Eleven of Them Is Knocked Out.

LANSING, Nov. 4.—In the case of McRae vs. the Grand Rapids, Lansing & Detroit Railroad company, the supreme court reversed the judgment of the court below, and a new trial is ordered. The point involved in the case in this court is whether or not the act of 1901, authorizing a verdict by less than twelve jurors is constitutional. One of the jurors having been sick for several days was discharged, and the verdict rendered by the remaining eleven. The opinion in substance says that while the legislature may have power to fix the number of a jury at less than twelve, it has not done so in the act in question, but conferred the power upon the trial court, and under the constitutionality of the legislature cannot delegate its power to any other tribunal. The act is held unconstitutional and void, and the court declares there has been a mistrial in this case. McGrath and Montgomery dissent.

HAD TO PAY UP.

Preferred Masonic Mutual Association Loses a Suit.

DETROIT, Nov. 4.—In the Wayne circuit court yesterday, before Judge Brevoort, Asa E. Dailey was given a verdict of \$5,456 against the Preferred Masonic Mutual association of America. In November, 1891, Arthur H. Dailey, a veteran passenger conductor on the Michigan Central railway, took out a policy for \$5,000. The day after the policy had been sent to his house he died from injuries received in an accident. The dead man's brother, Asa E. Dailey, was the beneficiary of the insurance. He collected the insurance held in another company that would soon have expired, but the Masonic association refused payment on the ground that their policy did not take effect until the other company's had run out. Suit to recover was brought with the above result.

HAGING SUPERIOR.

Compels Vessels to Seek the Nearest Harbor.

MARQUETTE, Nov. 4.—A fierce norther is sweeping Lake Superior today, driving all craft to the nearest shelter. The steamer Masaka, bound for Two Harbors, gave up the struggle when off Stannard Rock, put back and tried to make the Portage. Finding that impossible, she had to run before the storm to this harbor. The tug Hebard and Colton were compelled to let go a raft containing 1,800 feet of timber off Freestone line. Steamer Pioneer and Empire State left here last night but put back this morning.

Grand Rapids, Lansing & Detroit Railway company (two cases), Drayton v. Chandler & Taylor, Howard v. Coon, In Campau et al. vs. Common Council of Detroit, mandamus denied. The mandamus was applied for to compel a rescinding of a certain resolution appointing election inspectors in all the voting precincts of Detroit upon the ground that the authority did not lie with the council. The decision sustains the action of the council.

GOES WITH A RUSH

The Campaign Has No Bad Effect on Business

DESPITE DEMOCRATIC ROT

That Protection Does Not Mean Prosperity and That the Country is Going to the Dogs.

Register today.

NEW YORK, Nov. 4.—R. G. Dun & Co.'s Weekly Review of Trade will say: "Even in the last week before a presidential election business has continued very active. The people are clearly buying more goods than ever before in some branches of manufactures, and realizing a slight advance in prices. Money is closer at some western points, but nowhere is stringency seen, and there is no apprehension as to the immediate future."

Wheat has touched the lowest point ever known in this market, 74½c, receipts at western ports being still enormous. Exports have much increased and a recovery in price to 74½c has resulted, but the decline for the week is still ½c. Corn has fallen a cent, with moderate movement, but oats are a cent higher.

Sales of cotton have amounted to more than a million bales, and the price has advanced an eighth, for southern accounts appear to indicate a greater decrease in yield and the receipts are again comparatively small. Coffee is ½c lower, and hogs also, while lard is ½c stronger and oil 1½c higher. Speculation is not very active except in cotton.

Trade at Boston is very satisfactory. Jobbing trade in dry goods is steady. Some cottons have advanced in price and more machinery seems to be needed.

Large Wool Sales.

Wool is firmer, with sales of over 4,000,000 pounds, and the clothing trade fair in spite of mild weather. The boot and shoe business is active, with factories full of work. At Philadelphia iron has an advancing tendency; some improvement is seen in boots and shoes; the advance in paper is well maintained, and wool is active with some gains.

In paints, glass and oils moderate activity is seen. Trade is healthy and buoyant at Baltimore. Pittsburgh notes activity in iron, especially in finished products, and a fair trade in glass. At Cincinnati business somewhat exceeds last year's in groceries 20 to 30 per cent.

At Cleveland business is good, exceeding last year's and especially in clothing. At Detroit trade is larger than a year ago and manufacturers very active. At Indianapolis business is active, especially in foundries, machinery and saw manufacturing.

Trade at Chicago has been satisfactory, with a special increase in real estate transactions. Receipts of corn have been double last year's. Wheat and hides show a gain of 70 per cent for the week, butter 50, barley 40, and dressed beef 25 per cent, while in rye, oats, sheep and hogs a decrease of a third appears, in lard 50 per cent and in wool 75 per cent.

Heavy Demand for Iron.

Money is in strong demand at 6 per cent, little returning from western centers. At Milwaukee many of the largest houses were burned out, but none appear to be crippled so far and collections are still fair. Business is active at St. Paul, and at Minneapolis lumber is strong and wheat moving more freely. At Omaha and Denver trade is very good. At Kansas City business is large in volume with liberal receipts of live stock and better prices.

At St. Louis though the weather checks trade in woollens and clothing, groceries, boots and shoes, and dry goods generally are strong, and grain receipts heavy. At Louisville business is a fair average, and at Memphis slightly improved, though below the normal volume. At New Orleans troubles retard trade, but cotton is higher and active and receipts of sugar liberal with good demand.

Iron business improves everywhere and used stocks are fast disappearing. The sale of sugar, but a somewhat weak. The demand for plates is only moderate, for structural iron very large, and sheet scarce, with especial pressure for the lighter qualities. Western competition depresses plates, but for the industry as a whole, the tone has distinctly improved.

Increase in Wages.

Wool sales for the week have been 7,100,000 pounds against 4,800,000 the same week last year, and since November 13 the increase has been 37 per cent. The demand for woolen goods is active for the season. Cotton goods are firmer and in some lines higher in price.

Fall river mills have voluntarily increased wages 7 per cent. Boot and shoe factories are surprisingly busy for the season, shipments for the week exceeding last year 9 per cent. Rubber is easier at 65 cents for paraffine, and the advance in paper has been maintained, though there is some feeling of uncertainty. The bank of England makes no advance in rates, and money has been steady at 6 per cent.

Merchandise exports are improving and the excess of exports over imports is now large. Uncertainty has ruled during this week in the stock market. In general, nothing seems to foreshadow monetary difficulty, and with colder weather and political uncertainties removed, a great business advance is to be expected.

The business failures for the past seven days for the United States were 207, Canada, 31; total, 238, as compared with 187 last week and 265 for the corresponding week last year.

Canadian Advice.

NEW YORK, Nov. 4.—Bradstreet's trade report says: "Dispatches from leading Canadian cities show a variable condition of general trade, it being fairly active in Quebec, but quiet in Ontario. Montreal reports a dull grain trade, more activity in hog products, but a less favorable outlook for the exportable trade. Unseasonable weather is said to have checked the wholesale clothing trade at Toronto."

LONDON, Nov. 4.—Lord Mayor Evans and Lord Mayor-elect Knill have made a joint appeal for money to be used for the benefit of sufferers from the fire in St. Johns.

succeeded Dr. Barnes, deposed from the chairmanship of the people's party committee at the Mansfield meeting of the populist legislative committee, and Secretary Martin, today made a formal demand upon Barnes for books, accounts and moneys of the people's party. Dr. Barnes refused to surrender the books and cash on the ground that his deposition was illegal. The matter will probably be taken into the courts. The action of the committee in deposing Barnes has split the party in the district, and in the opinion of Dr. Barnes, has destroyed the usefulness and power of the party in Ohio.

EGAN SPEAKS AT NEW YORK.

A Large Crowd Grets the Chilian Minister at Cooper Union.

NEW YORK, Nov. 4.—One of the largest meetings of Irish-American republicans ever held in this city occurred tonight at Cooper Union. The large hall was filled to its utmost capacity with an enthusiastic audience, who cheered the name of Harrison to the echo. The meeting was opened by D. F. Burke, president of the league of college clubs, who, in introducing the principal speaker of the evening, Minister Egan, reviewed the campaign, and then announced Mr. Egan as chairman of the meeting.

Mr. Egan, after thanking the audience for the welcome extended to him, said: "I presume, my fellow countrymen, that the reason I have been selected for this honor is for the fact that I am singled out by the un-American muggumps and by the pro-British section, press and party, as the butt of all their bile and venom against those of the Irish race who will not tamely bend their necks to the yoke of the democratic party. I have dared to form for myself an independent opinion in American politics, without consulting the democratic bosses, and therefore at any and every cost, I must be downed, even if it necessitates the calling of their last reserves in the person of Grover Cleveland and his partner, Wayne MacVegh, to do it."

"From the first day that my name was mentioned for the Chilian mission, the muggump and the democratic press, with some few honorable exceptions like the New York Sun, kept time with the London Times in assailing me. In Ohio, where I was personally attacked from the rear by those people, and but for the thoroughly American stand maintained by President Harrison, Mr. Blaine, Secretary Tracy and the other members of the cabinet, American prestige and American honor would have suffered a defeat from which they could have taken many years to recover."

Of the Chilian incident Mr. Egan said: "I felt and I feel as an American that the glorious flag of this republic should wave as high and as proudly as the standard of England; that every American citizen and every American interest in a foreign land should be at least as secure as those of any other nation in this world. I thought, too, that I understood that these were the sentiments of the republican party and of its standard-bearer, President Harrison, and I found that I was not mistaken. I therefore adopted the course that I have pursued in Chilia, and as security to come before my fellow citizens tonight and to be able to say that my every act, and every word, in that connection, met with the unqualified approval of such republicans of American patriotism as President Harrison and James G. Blaine and with the entire approbation of the entire republican press and party."

Mr. Egan's remarks were interspersed with loud applause, and when he concluded he received an ovation which lasted some time. A set of resolutions were then adopted with a hurrah. The resolutions after pledging earnest support to Harrison and Reid, appeal for Irish-American citizens throughout the union to assist in preserving this nation from the accursed system that has reduced Ireland to pauperism, repel with indignation the pretense of the democratic party to own or to control the Irish vote, repudiate Wayne MacVegh as a renegade from his party and race, commend the present administration for its action toward Irish political prisoners; reiterate confidence in the Hon. Patrick Egan and thank the president for his support of the latter.

BE ON YOUR GUARD.

Democrats Unusually Prolific With Campaign Lies.

NEW YORK, Nov. 4.—The following was issued this evening by the republican national committee: "The instructions of Acting Attorney General Aldrich to United States marshals and the citation from the law governing their employment at the polls, together with the penalties prescribed for interference with the free exercise of the franchise by the duties, have brought consternation to Tammany. It is the belief that with the proper precautions which will be taken, a fair election can be held in this city."

There has come to the republican national committee, from various sources, information that the reserve crop of campaign lies for issuing the day before election, is very prolific. Unusual sensational articles are to be published representing what purport to be facts from all the western states for publication in the east, and the reverse for publication in the west, with too late to be contradicted. Republicans all over the land should be prepared for this line of action. Be on your guard. Believe only that which is consonant with your common sense or accompanied with unimpeachable testimony, and do not change the conviction that has come by honest thought, but vote as your conscience dictates, and as you think to be right. You have the assurance of this committee, based on reliable and confidential information from all over the country, that the nominee of the republican party will be elected by a constitutional majority that shall be beyond question."

Grover Speaks at Jersey City.

NEW YORK, Nov. 4.—The Cleveland demonstration at Oakland last evening was in the nature of an ovation. The rink has a capacity of 5,000 people, but the crowd that was packed within its walls tonight can be estimated at fully 1,500 in excess of that number. Ex-Senator William Brinkerhoff presided and the list of vice presidents represented every one of the twenty-one counties comprising the state. Mr. Cleveland and Senator McInerney were the speakers.

At 1 o'clock the party proceeded to the hotel.

Sings a New Song.

ATCHISON, Kas., Nov. 4.—Mrs. M. E. Lease, spoke here this evening to about 500 people, three-fourths of whom were republicans. She steered clear of the people's party platform and did not dwell on their hobbies at all. She demanded that a vote for Weaver was a vote for Cleveland. She devoted the greater portion of her one hour's speech to the "egg omelet" belt of Georgia.

BUFFALO, Nov. 4.—The grand jury has indicted in the Broderick case and has found true bills for murder in the second degree against Lieutenant Cassidy of the Twenty-Second regiment, New York City, and "Richard Roe," a member of the detail which pursued Broderick and whose home is unknown.
